

“The total liberation and unification of Africa under an All-African Socialist government must be the primary objective of all Black revolutionaries throughout the world. It is an objective which, when achieved, will bring about the fulfillment of the aspirations of Africans and People of African descent everywhere. It will at the same time advance the triumph of the international socialist revolution.” --Kwame Nkrumah

We call for a Coordinated Response of Collective Positive Action! The People must end this Modern Scramble for Africa

There is no doubt that what we have witnessed recently and over the last decade or so with the advance of global wars for the theft of people’s resources, the assassination and terrorism of our African revolutionary leadership, the formation of Africom and the scramble for mineral rich and geo political important land is the number one priority for the imperialists today.

The most recent Paris Conference where Russia, Germany, France and the united snakes established the structure and objective of the new Libyan government is reminiscent of a meeting held amongst foreign ministers of 14 european powers in November 1884 where no African country was invited in 1884. That meeting was the Berlin Conference where once again Germany, France, Great Britain and the united snakes played a critical role.

It is ironic that at the beginning of the rise of capitalism, it was the scramble for Africa where european colonialists super imposed their dominion over Africa and her resources to feed the coffers of the banks, feed the machinery of the mills, and mined Africa’s mineral wealth. It was the theft of Africa’s resources and her people that plummeted european powers into the 20th century. Today we see europe and the united snakes in economic decline and it is this very scramble that is their guarantee for the survival for their industries and thus the awakening of their banking and imperialist finance systems.

This pillage must NOT be allowed to continue without a response.

In the name of our mighty warrior ancestors Nkrumah, Toure, Lumumba, Sankara, Cabral, Gaddafi and others, we raise our voices and our fists and commit to revolutionary action. Nkrumah reminds us *that ‘the basis of a revolution is created when the organic structure and conditions within a given society have aroused mass consent and mass desire for positive action to change or transform the society.’* The masses of our people want peace and justice. Everywhere African and other indigenous peoples are living today, we are suffering from elite orchestrated imperialist violence, theft and outright war against humanity. Although the bourgeois controlled worldwide press/media fail to show our outrage, the masses of people around the world are demonstrating, protesting and voicing

their discontent. **What we do not have is coordinated action.** The people's outrage must be an organized response that is felt politically and financially. We must educate the people to the lies and betrayal of the bourgeois governments/institutions they have supported and **facilitate a movement to Stop supporting illegal imperialist politico-financial pirates/governments and encourage our peoples to build Revolutionary movements.** Nkrumah also stated *'The privileged upper classes will not, unless compelled, surrender power.'* Only when threatened will they concede power. The masses must organize our power through revolutionary action and demand an end to the land grabs, expose the so-called war on terror which is now a war on Africa, Asia, Latin America, the Middle East and wherever else there is oil and other minerals necessary for the rescuing of a dying capitalist economy. As they wage their illegal war on our Peoples and usurp our lands right under our feet, we must wage a serious and relentless propaganda and strategy war against the imperialist forces to destroy every remnant of the system until we have the resources in our hands to build our socialist societies in the interest of The People and thus all of humanity. We need to wage a relentless Class Struggle For Africa!

A people divided seek little. A people united can demand everything and achieve it! Frederick Douglas reminds us that power concedes nothing without a demand. Kwame Ture says: "Power that is not conscious of itself is no Power; and Power that is not organized is no Power!"

For our voices to be heard and the bite of mass power to be felt, our demands must manifest into daily acts of revolutionary mass action in the form of demonstrations, protests, global boycotts and political/media statements heard and felt throughout the world. The occupy movement is echoing the same call for justice and the masses are rising up!

Whether the African Union stands on its feet or on its knees, we are calling the Pan African forces to unite to build a propaganda and political offensive campaign NOW!

We also call on all revolutionary socialist forces to Stand with the Peoples of Africa, Asia, Latin America and the Middle East and help us collectively ignite this Class Struggle for our indigenous lands and all of humanity!

We ask all revolutionary Pan Africanist Socialist parties, movements and states to agree in solidarity with the following:

- 1. We call on all Progressive and revolutionary organizations, movements and states to call for the complete dismantling of all agreements between imperialist finance capital and our indigenous Nations.**
- 2. We call for the obliteration of imperialist formations such as NATO and call for an end to all foreign military, political and economic controls within Africa and its territories.**
- 3. We call on all Progressive and revolutionary organizations, Pan- Africanist and Socialist movements, parties and states to mobilize and organize weekly/monthly propaganda and economic campaigns to dismantle and destroy all capitalist corporate and financial institutions supporting the exploitation of African and other indigenous peoples. Our action must be coordinated.**
- 4. Let us collectively post this statement and pictures, video clips and YouTube post on our websites and help to initiate the Global Peoples Media campaign to destroy imperialism!**
- 5. If your organization is in agreement with this statement, we ask that you contact us via our website and ask to be added as a signatory to this Political Action Campaign.**
